Ponderosa Nature Resort has initiated a Schedule C Municipal Class Environmental Assessment (MCEA) for Improvements to the Water and Wastewater System. The purpose of the Study is to identify a preferred solution and design concept that provides a cost-effective and environmentally sound means of providing water supply, treatment and distribution and wastewater collection, treatment and disposal for Ponderosa with sufficient capacity to service existing and proposed facilities. Alternatives will be examined as part of the Study including the impacts of alternatives on the social, cultural, natural, and financial environment.

This PIC has been scheduled to allow all interested parties an opportunity to discuss issues related to the project, including the alternative solutions being considered. Public input is encouraged and will be given consideration during the planning and design of this project.

Please provide us with your Comments/Questions/Suggestions (additional space on back of page):

Ponderosa Nature Resort and R.J. Burnside & Associates Limited thank you for your involvement in Municipal Class Environmental Assessment Study for Ponderosa Nature Resort Water and Wastewater System Improvements. Information will be collected in accordance with the *Freedom of Information and Protection of Privacy Act*. With exception to personal information, all comments will become part of the public record. Project information and comment sheet will be made accessible upon request in accordance with the Accessibility Standard for Information and Communication under the *Accessibility for Ontarians with Disabilities Act, 2005*.
