Ponderosa Nature Resort has initiated a Schedule C Municipal Class Environmental Assessment (MCEA) for Improvements to the Water and Wastewater System. The purpose of the Study is to identify a preferred solution and design concept that provides a cost-effective and environmentally sound means of providing water supply, treatment and distribution and wastewater collection, treatment and disposal for Ponderosa with sufficient capacity to service existing and proposed facilities. Alternatives are being examined as part of the Study including the impacts of alternatives on the social, cultural, natural, and financial environment.

This PIC has been scheduled to allow all interested parties an opportunity to provide feedback on the project, including the results of environmental and technical studies, the alternative designs concepts considered and preliminary preferred designs. Public input is encouraged and will be given consideration during the planning and design of this project.

Please indicate your level of interest in the project below:

- I have no comments / concerns on the project
- My comments / concerns on the project are provided on this Comment Sheet

Please provide us with your Comments/Questions/Suggestions (additional space on back of page):

**Municipal Class Environmental Assessment Study
Ponderosa Nature Resort Water and Wastewater System Improvements**

Please complete this Comment Sheet and email to either of the Study Team members below on or before July 11, 2022. Your input and comments are appreciated.
